Course overview

The MSc in Healthcare Infection Management is a postgraduate qualification that meets the need for a multi-disciplinary approach to modern healthcare infection control. This course provides specialist teaching delivered by the Department of Clinical Microbiology, School of Medicine in conjunction with partner organisations including St. James's and Tallaght Hospitals.

Structure & delivery

The course is delivered in the form of 4 taught modules, which comprise a total of 60 ECTS. There is also a 5th research-based module which comprises 30 ECTS that will enable students to acquire new laboratory skills and perform research on a topic that is relevant to contemporary healthcare.

Modules (ECTS are listed in brackets)

Module 1: Clinical microbiology & infectious diseases (15)

Module 2: Antimicrobial therapy & resistance (15)

Module 3: Epidemiology & infection control (15)

Module 4: Multidisciplinary management of infection (15)

Module 5: Research project (30)

Entry requirements

Applicants must hold one of the following;

- A medical degree
- An honours degree in Biomedical Sciences, Nursing, Pharmacy or Microbiology
- An honours degree in another relevant science subject

Applications may also be received from individuals with a minimum 3 years of relevant healthcare experience and suitable qualifications (conditions apply).

English language (≥ 6.5 on IELTS)
