The Irish Society of Clinical Microbiologists is pleased to introduce the 2013 ISCM Bursary supported by an unrestricted educational grant from Pfizer Anti-Infectives

Terms and Conditions:

Entries
- Open to all medical microbiologists, except those in full-time permanent consultant positions
- Entrants are required to prepare and submit an original essay on the above topic with a maximum of 2,000 words and no more than 20 references and to complete an application form
- The application must be received by the notified closing date / time

Assessment
- Adjudication will take place by the ISCM Bursary Committee, along with invited expert(s) as may be determined from time to time
- The grants will be awarded by 22nd Feb 2013

For full terms and conditions or for more information, please go to www.iscm.ie
Applications and Eligibility:

Proposals should have a clinical focus. Prospective evaluations are preferred. However, well designed retrospective analyses may also be considered for inclusion into the overall proposal to generate and test hypotheses.

The ISCM invites investigators to apply for the ISCM Bursary through submission of research proposals on the subjects of:

- Antibiotic Resistance
- Antimicrobial Stewardship
- Invasive Fungal Infection

Applications: Applicants are required to prepare and submit an original essay of no more than 2000 words on one of the above topics and to complete an application form.

Eligible Candidates: Open to all medical microbiologists, except those in full-time permanent consultant positions.

Closing date of entry: Entries must be received no later than Friday 18th January 2013.

Two types of funding are available:

Major Research Grant up to €70,000
This grant would be suitable to support a PhD studentship, MD or other research worker and related consumables/equipment.

Small Research Grants up to €10,000
These would be suitable to support small-scale research projects.
